INDEX OF SUBJECTS

(Page numbers in *italics* refer to abstracts)

- Acetylsalicylic acid esterase in aspirin metabolism, 350
 Achondroplasia, 695-702
 Acid phosphatase, and antibody effects on tissue culture cells, 323
 Acromegalic arthropathy, 65-73
 Adenosine nucleotides in platelets, metabolism of, 741
 Adjuvant arthritis
 estrogen suppression of, 333
 induction procedure, 742
 inhibition by protein antigens, 337
 latent stage of, 316
 polyarthritis and immune response, 654-661
 and subfractions of Wax D, 746
 Adrenal steroid therapy. *See* Steroid therapy
 Agammaglobulinemia, 309
 Agglutinating factors eluted from erythrocytes, in rheumatoid arthritis, 739
 Agglutinins, anti-Gm. *See* Anti-Gm substances
 Aging
 and protein synthesis in articular cartilage, 743
 serologic reactions and serum proteins in, 297
 in tendons, 733
 Albumin
 alterations in rheumatic disease, 747
 bovine serum, denaturation of, chloroquine affecting, 193-199
 hypoalbuminemia in rheumatoid arthritis, 740
 Aldehydes, effect on tensile strength of skin collagen, 330
 Aleutian mink disease, 521-533
 Allopurinol, effects on uric acid excretion, 316
 American Rheumatism Association
 annual meeting of 1964, 189, 452
 proceedings of, 284-355
 Arthritis Foundation, 762
 Clark named Foundation president, 547
 Conference on Gout and Purine Metabolism, 100-101, 452
 criteria for diagnosis of rheumatoid arthritis, 745
 death of Dr. Bunim, 452, 542-544
 Gairdner Foundation Awards, 101
 Index of Rheumatology, 618-619, 762
 interim session of 1963, 100
 interim session of 1964, 452, 547
 proceedings of, 724-761
 International Gout Congress, 101
 literature analysis project, 615-622

American Rheumatism—(Continued)

new directory available, 548

New York Rheumatism Association, 167-170

news from Europe, 190

nomenclature and classification in, 93-96

Polley installed as President, 451

workshop on June 17, 189

Amine metabolism, in scleroderma, 138-149

Amino acids, and hyperuricemia, 319

Amopyroquin, in rheumatoid disease, 289

Amyloid

anti-amyloid antibodies, 299

association with gamma globulin, 751

isolation and characterization of, 338

production of, by tissue explants, 301

Amyloidosis, pathogenesis of, 284

Analgesics, oral, computer program for study of, 741

Androgen metabolism, in rheumatoid spondylitis, 322

Anemia

aplastic, and polymyositis, 275-281

iron deficiency, in rheumatoid arthritis, 354

sickle cell, and lupus erythematosus, 443-449

Antibodies

anti-amyloid, 299

antinuclear. *See* Antinuclear factors

to DNA in lupus erythematosus, 379-389

effects on tissue culture cells, 323

fluorescent antibody inhibition method, for antinuclear factors, 339

influenza A, and rheumatoid factor, 348

inhibition of formation by 7S and 19S antibody, 324

mercaptoethanol resistant, in SLE, antigenically related to gamma 1 M globulin, 341

non-gamma antinuclear globulin and 7S antibody, 748

rheumatoid factor specificity, papain and cysteine affecting, 313

to ribosomes, in lupus erythematosus, 347

Antigenic properties of synthetic polypeptides, 740

Antigens

chondromucoprotein, antigenic sites of, 323, 341

protein, inhibiting adjuvant arthritis, 337

Anti-Gm substances

production in pregnancy, 309

in rheumatoid arthritis, 110-117

in sera after transfusions, 730

Antinuclear factors

in aged patients, 297

experimental induction of, 349

fluorescent antibody inhibition for classification of, 339

heterogeneity of, in lupus erythematosus and rheumatoid arthritis, 290

immunofluorescence detecting, 119-127, 161-166

in inbred strains of mice, 753

in lupus erythematosus, 119-127, 379-389

in nephritis with SLE, 350

and non-gamma globulin, 748

in synovial fluid, 726

Arthropathy

acromegalic, 65-73

steroid, 758

Ascorbic acid, effect on dermal fibroblasts, 752

Aseptic necrosis, in lupus erythematosus, 709-721

Aspirin metabolism and absorption, 350

See also Salicylates

Attitudes of patients concerning arthritis, 425-435

Autoimmune disease

with Hashimoto's disease, 327

homologous disease as model for, 347, 352

Autoimmunity

and emotional stress, 345

and rheumatoid arthritis, 458

Azathioprine

in lupus erythematosus, 329

in rheumatoid arthritis, 735

Bacterial endotoxin, synovial cellular reaction to, 315

Baker's cyst and thrombophlebitis, and rheumatoid arthritis, 56-64

Bauer, Walter, 272-274

Bence Jones proteinemia, with lupus erythematosus, 733

Bibliography of history of rheumatic diseases, 75-79

Bleeding, gastrointestinal, from aspirin, and anemia in rheumatoid arthritis, 354

Blood flow, peripheral, in scleroderma, 351

Bone dysplasias, dynamic classification of, 693-707

Bone erosion, rheumatoid, 287, 326
